Subject: [External] Reportable Incident - York County Natural Gas Authority

Following up on my verbal notification, York County Natural Gas Authority experienced a reportable incident this evening. Lightning struck a tree at 755 Harvest Point Drive in Fort Mill, SC, and subsequently damaged a gas main. There was no ignition of the natural gas and no injuries. York County Natural Gas Authority Operations personnel responded and isolated the leaking gas by operating a valve. Due to the event, 51 customers lost service. Company crews are currently repairing the gas line and will be subsequently restoring service to our customers.

Please advise if you have any questions or need additional information.

Regards,

Glen
